

MATERIAL SAFETY DATA SHEET

For U.S. Manufactured or Distributed Welding Consumables and Related Products. May be used to comply with OSHA's Hazard Communication Standard, 29 CFR 1910.1200 and Superfund Amendments and Reauthorization Act (SARA) of 1986 Public Law 99-499. Standard must be consulted for specific requirements.

SECTION 1 - IDENTIFICATION

Manufacturer/Supplier Name: HOBART BROTHERS COMPANY
Address: 400 TRADE SQUARE EAST, TROY, OH 45373
Telephone No: (937) 332-4000
Emergency No: (800) 424-9300
Products For: TUBULAR ARC WELDING ELECTRODES FOR FLUX CORED, METAL CORED AND COMPOSITE SUBMERGED ARC WELDING
"GROUP A": Product Type: Gas Shielded Carbon and Low Alloy Steel
Trade Name For: EXCEL-ARC 71; FABCO 80D2, 82HD, 85, 90, 825, RXR, TR70, E70T-1C, E70T-9C H8; FABCOR 86R, 96, 702; FABDUAL T9M, T91M; FLUX-COR 2, 3, 7, 9XT, 37, 80A1, 90D3; GALVACOR; GALVALLOY; METAL-COR 3, 3S, 6, 6L, 8, 80D2, EH14S, EL12KS, EM12KS, EN-VISION; METALLOY 70, 70R, 70X, 71, 76, 80D2, A1S, A3S, CO2, EH14S, EL12KS, EM12KS, EM13KS, X-CEL; PIPEMASTER MC70; SPEED-ALLOY 70, 71, 71A, 71A1, 71-V, 719, 75, 95D2, 105D2; SPEED-COR 6; SUPER-COR; SUPER TUF-COR; TM-11, 22, 37, 55, 71 XTR, 72, 73, 75A1, 81A1, 91D3, 95D2, 105D2, 711M, 791, 811A1, RX7; TRIPLE-7, 8; TUF-COR 1, 5, 75A1, 95D2, 105D2; VERSATILE; VERTI-COR I, II, III, 71, 81A1
"GROUP B": Product Type: Self-Shielded Carbon Steel
Trade Name For: FABSHIELD 4, 21B, 23, 31, 55, 120C, 7027, HSR; SELF-SHIELD 3, 4, 7, 11, 11GS; SPEED-SHIELD 11, GS; TM- 33R, 44, 77, 121, 123, 133
"GROUP C": Product Type: Carbon and Low Alloy Steel
Trade Name For: DURASHIELD 8-11; EDGE; FABCO 81K2-C, 83, 91, 91K2-C, 110, 110K3-M, 115, 803, HICOR; FABCOR 209, 1100; FABSHIELD 3Ni1, 71K6, 81N1, 81N2, 811K6, 7018, XLR-8, FABSHIELD X80; FLUX-COR 80B2, 80Ni1, 80Ni2, 80W, 90B3, 90K2, 90Ni2, 100K3, 110K3; FORMULA XL8Ni1, XL8Ni1-C, XL525, XL550, GD5; HERCULES; HOBART CBC-1; MATRIX; MEGAZORD; METAL-COR 80B2, 80Ni1, 80Ni2, 80Ni3, 90, 90B3, 100, 110, B2S, B3S, F2S, MAXIM, N1S, N2S, N3S, N4S, WS; METALLOY 70 BE, 80B2, 80N1, 80N2, 80N3, 80W, 90, 90B3, 100, 100G, 110, 120S, B2S, B3S, F2S, N1S, N2S, N3S, N4S, VANTAGE, VANTAGE D2, VANTAGE Ni1, WS; PREMIER 70; PW-201; PIPEMASTER F100-K2, F101-K2, F110-N1, F71, FS71-K6, FS71Ni1, FS 81-Ni2, MC90, MC100; SELF-SHIELD 8; SPEED-ALLOY 71-VC, 81B2L-V, 81Ni1-V, 81Ni2-V, 81W, 81W-V, 85, 85C1, 85C2, 85C3, 91B3, 91B3L, 91B3L-V, 91B3-V, 91-V, 92S, 95, 100F3-S, 111-V, 112-S, 115, 125, 712, 712M, 790, 4130-V; TM-78K6, 81B2, 81N1, 81N2, 81W, 85B2L, 85N1, 85N2, 85N3, 91B3, 91B3L, 91K2, 91N2, 95K2, 95M-B3, 101K3, 105K3, 111K3, 115, 125K4, 770, 771, 71HYN, 772, 811B2, 811N1, 811N2, 811N3, 811W, 880, 881K2, 910, 911B3, 911N2, 991K2, 101, 101K3-C, 1101K3-M, 4130; TUF-COR 85B2L, 85Ni1, 85Ni2, 85Ni3, 95B3, 95K2, 105K3, 115, 125K4; VERTI-COR 70, 72, 81B2, 81Ni1, 81Ni2, 81W, 91B3, 91K2, 91Ni2, 110K3-M, 1101K3-C, IINi1
"GROUP D": Product Type: Corrosion Resisting Steel Metal Cored
Trade Name For: ARC STAR 409; FABCOR 409; FABLOY 409, 409T, 439; FABTUF 250, 960; METAL-COR 409, 409Cb, 439; METALLOY 18CrCb, 409, 409Cb, MCW430NbL, 439; POWERCORE 91; RSC-409; SPEED-ALLOY 5055; TM B6, B9

SECTION 2 - HAZARDOUS INGREDIENTS

IMPORTANT - This section covers the hazardous materials from which this product is manufactured. The fumes and gases produced during welding with normal use of this product are also addressed in Section 5. The term "hazardous" in this section should be interpreted as a term required and defined in OSHA Hazard Communication Standard (29 CFR Part 1910.1200).

Table with 7 columns: HAZARDOUS INGREDIENTS, GROUP - % WEIGHT (A, B, C, D), CAS NO., EXPOSURE LIMIT (mg/m3) OSHA PEL, and ACGIH TLV. Rows include IRON+, IRON OXIDE, MANGANESE#, TITANIUM DIOXIDE, SILICON+, FLUORSPAR, MOLYBDENUM, CALCIUM CARBONATE, ALUMINUM###, MAGNESIUM+, MAGNESIUM OXIDE, BARIUM FLOURIDE#, NICKEL#, CHROMIUM#, COPPER#, TITANIUM+, SILICA++, LITHIUM FLUORIDE, STRONTIUM FLUORIDE, COBALT, CERIUM OXIDE, ANITMONY TRIOXIDE.

(1) Present only in FABSHIELD 21B, 23, 31, 120 C; TM 121, 123 and 78K6; SELF-SHIELD 11,11GS. (2) Present only in FABCO 83, 110K3-M, FLUX-COR 80W, GALVACORE; GALVALLOY; METALLOY 80 W, WS; METAL-COR 81W; SPEED-ALLOY 81W, 81W-V; TM-81W, 811W; VERTI-COR 81W (3) Present only in DURASHIELD 8-11; FABSHIELD 3Ni1, 7018, 71K6, 81N1, 81N2, 811K6; HERCULES; PIPEMASTER FS71-Ni1, FS81 - Ni2; SELF-SHIELD 8; TM 78K6 (4) Present only in FABSHIELD 55; SELF SHIELD 3; TM 33, 133. (5) Present only in FABCO 85; METALLOY EM13K5; SPEED-ALLOY 75, 75A1, 95D2, 105D2; TM 55, 75A1, 95D2, 105D2; TUF-COR 5, 75A1, 95D2, 105D2 (6) Present only in DURASHIELD 8-11; FABSHIELD 3Ni1, 7018, 71K6, 81N1, 81N2, 811K6; HERCULES; PIPEMASTER FS71-Ni1, FS81-Ni2; SELF - SHIELD 8; TM 78K6 (7) Present only in FABSHIELD 7018, 7027; SELF - SHIELD 8; TM 77, 133. (8) Present only in FABSHIELD 21B; TM 121. (9) Present only in DURASHIELD 8-11; FABSHIELD 3Ni1, 7018, 7027, 71K6, 81N1, 81N2, 811K6; PIPEMASTER FS71-Ni1, FS81-Ni2; SELF-SHIELD 8; TM 78K6. (10) Present only in DURASHIELD 8-11; FABSHIELD 71K6, 81N1, 81N2; MEGAZORD; PIPEMASTER F110-N1, FS71-Ni1, FS81-Ni2 (11) Present only in DURASHIELD 8-11;

FABSHIELD 7018; HERCULES; SELF-SHIELD 8 (12) Present only in MATRIX; METAL-COR MAXIM; METALLOY VANTAGE, VANTAGE D2, VANTAGE Ni1 R* - Respirable Fraction I* - Inhalable Fraction ** - Ceiling Limit *** - Short Term Exposure Limit +- As a nuisance particulate covered under "Particulates Not Otherwise Regulated" by OSHA or "Particulates Not Otherwise Classified" by ACGIH ++ - Crystalline silica is bound within the product as it exists in the package. However, research indicates silica is present in welding fume in the amorphous (noncrystalline) form #- Reportable material under Section 313 of SARA ### - Reportable material under Section 313 of SARA as dust or fume {A1} - Confirmed Human Carcinogen per ACGIH {A2} - Suspected Human Carcinogen per ACGIH {A3} - Confirmed Animal Carcinogen with Unknown Relevance to Humans per ACGIH {A4} - Not Classifiable as a Human Carcinogen per ACGIH {A5} - Not Suspected as a Human Carcinogen per ACGIH (noncrystalline) form

The exposure limit for welding fume has been established at 5 mg/m³ with OSHA's PEL and ACGIH's TLV. The individual complex compounds within the fume may have lower exposure limits than the general welding fume PEL/TLV. An Industrial Hygienist, the OSHA Permissible Exposure Limits for Air Contaminants (29 CFR 1910.1000), and the ACGIH Threshold Limit Values should be consulted to determine the specific fume constituents present and their respective exposure limits.

SECTION 3 - PHYSICAL/CHEMICAL CHARACTERISTICS

Welding consumables applicable to this sheet are solid and nonvolatile as shipped.

SECTION 4 - FIRE AND EXPLOSION HAZARD DATA

Welding consumables applicable to this sheet as shipped are nonreactive, nonflammable, nonexplosive and essentially nonhazardous until welded. Welding arcs and sparks can ignite combustibles and flammable products. See American National Standard Z49.1 referenced in Section 7.

SECTION 5 - REACTIVITY DATA - HAZARDOUS DECOMPOSITION PRODUCTS

Welding fumes and gases cannot be classified simply. The composition and quantity of both are dependent upon the metal being welded, the process, procedures and electrodes used. **Most fume ingredients are present as complex oxides and compounds and not as pure metals.** Other conditions which also influence the composition and quantity of the fumes and gases to which workers may be exposed include: coatings on the metal being welded (such as paint, plating or galvanizing), the number of welders and the volume of the work area, the quality and amount of ventilation, the position of the welder's head with respect to the fume plume, as well as the presence of contaminants in the atmosphere (such as chlorinated hydrocarbon vapors from cleaning and degreasing activities). When the electrode is consumed, the fume and gas decomposition products generated are different in percent and form from the ingredients listed in Section 2. Decomposition products of normal operation include those originating from the volatilization, reaction or oxidation of the materials shown in Section 2, plus those from the base metal and coating, etc., as noted above.

Reasonably expected constituents of the fume would include: Complex oxides of iron, manganese, silicon and titanium. Groups A and B may also contain calcium oxides. Groups A, B and C may have fluorides present. Groups A, C, and D may also contain molybdenum. Group B may also contain magnesium. Groups A, B, and C may also contain aluminum. Groups B and C may also contain barium. Groups A and C may also contain copper. Groups C and D may also contain chromium and nickel. Group B may also contain magnesium, lithium and strontium. Group C may also contain cobalt. Group C may also contain antimony trioxide.

Monitor for the materials identified in Section 2. Fumes from the use of this product may contain barium, fluorides, manganese, calcium oxide, chromium and nickel compounds, copper, antimony trioxide and amorphous silica fume whose exposure limits are lower than the 5 mg/m³ PEL/TLV for general welding fume.

Gaseous reaction products may include carbon monoxide and carbon dioxide. Ozone and nitrogen oxides may be formed by the radiation from the arc. One recommended way to determine the composition and quantity of fumes and gases to which workers are exposed is to take an air sample inside the welder's helmet if worn or in the worker's breathing zone. [See ANSI/AWS F1.1, available from the "American Welding Society", P.O. Box 351040, Miami, FL 33135. Also, from AWS is F1.3 "Evaluating Contaminants in the Welding Environment - A Sampling Strategy Guide", which gives additional advice on sampling.]

SECTION 6 - HEALTH HAZARD DATA

EFFECTS OF OVEREXPOSURE:

Electric arc welding may create one or more of the following health hazards:

ARC RAYS can injure eyes and burn skin.

ELECTRIC SHOCK can kill. See Section 7.

FUMES AND GASES can be dangerous to your health.

PRIMARY ROUTES OF ENTRY are the respiratory system, eyes and/or skin.

SHORT-TERM (ACUTE) OVEREXPOSURE EFFECTS:

Welding Fumes - May result in discomfort such as dizziness, nausea or dryness or irritation of nose, throat or eyes. **Iron, Iron Oxide** - None are known. Treat as nuisance dust or fume. **Manganese** - Metal fume fever characterized by chills, fever, upset stomach, vomiting, irritation of the throat and aching of body. Recovery is generally complete within 48 hours of the overexposure. **Titanium Dioxide** - Irritation of respiratory system. **Silica (Amorphous)** - Dust and fumes may cause irritation of the respiratory system, skin and eyes.

Fluorides - Fluoride compounds evolved may cause skin and eye burns, pulmonary edema and bronchitis. **Molybdenum, Cerium Oxide** - Irritation of the eyes, nose and throat.

Calcium Oxide - Dust or fumes may cause irritation of the respiratory system, skin and eyes. **Aluminum Oxide** - Irritation of the respiratory system. **Magnesium, Magnesium Oxide** - Overexposure to the oxide may cause metal fume fever characterized by metallic taste, tightness of chest and fever. Symptoms may last 24 to 48 hours following overexposure. **Barium** - Aching eyes, rhinitis, frontal headache, wheezing, laryngeal spasms, salivation or anorexia. **Nickel, Nickel Compounds** - Metallic taste, nausea, tightness in chest, metal fume fever, allergic reaction. **Chromium** - Inhalation of fume with chromium (VI) compounds can cause irritation of the respiratory tract, lung damage and asthma-like symptoms. Swallowing chromium (VI) salts can cause severe injury or death. Dust on skin can form ulcers. Eyes may be burned by chromium (VI) compounds.

Allergic reactions may occur in some people. **Copper** - Metal fume fever characterized by metallic taste, tightness of chest and fever. Symptoms may last 24 to 48 hours following overexposure. **Strontium Compounds** - Strontium salts are generally non-toxic and are normally present in the human body. In large oral doses, they may cause gastrointestinal disorders, vomiting and diarrhea. **Lithium Compounds** - Overexposure may cause tremor and nausea. **Cobalt** - Pulmonary irritation, cough, dermatitis, weight loss.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Antimony Compounds - Irritation of nose, throat, eyes and skin.

Cobalt - Repeated overexposure to cobalt compounds can produce reduced pulmonary function, diffuse nodular fibrosis of lungs and respiratory hypersensitivity. IARC considers cobalt compounds as possibly carcinogenic to humans (GROUP 2B). **Antimony Compounds** - Metal fume fever, dermatitis, keratitis, conjunctivitis and ulceration and perforation of the nasal septum. Avoid conditions in which fresh hydrogen will react with antimony to form stibine which is extremely toxic. IARC considers antimony trioxide as possibly carcinogenic to humans (Group 2B).

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE: Persons with pre-existing impaired lung functions (asthma-like conditions).

EMERGENCY AND FIRST AID PROCEDURES: Call for medical aid. Employ first aid techniques recommended by the American Red Cross. **Eyes & Skin:** If irritation or flash burns develop after exposure, consult a physician.

CARCINOGENICITY: Chromium VI and nickel compounds must be considered as carcinogens under OSHA (29 CFR 1910.1200). Chromium VI compounds are classified as IARC Group 1 and NTP Group 1 carcinogens. Nickel compounds are classified as IARC Group 1 and NTP Group 2 carcinogens. Welding fumes must be considered as possible carcinogens under OSHA (29 CFR 1910.1200).

CALIFORNIA PROPOSITION 65: For Group C and D products: **WARNING:** This product contains or produces a chemical known to the State of California to cause cancer and birth defects (or other reproductive harm). (California Health & Safety Code Section 25249.5 et seq.)

For Group A and B products: **WARNING:** This product, when used for welding or cutting, produces fumes or gases which contain chemicals known to the State of California to cause birth defects and, in some cases, cancer. (California Health & Safety Code Section 25249.5 et seq.)

SECTION 7 - PRECAUTIONS FOR SAFE HANDLING & USE/APPLICABLE CONTROL MEASURES

Read and understand the manufacturer's instructions and the precautionary label on the product. See American National Standard Z49.1; Safety in Welding and Cutting published by the American Welding Society, P.O. Box 351040, Miami, FL 33135 and OSHA Publication 2206 (29 CFR 1910), U.S. Government Printing Office, Washington, DC 20402 for more detail on any of the following.

VENTILATION: Use enough ventilation, local exhaust at the arc or both to keep the fumes and gases below PEL/TLVs in the worker's breathing zone and the general area. Train the welder to keep his head out of the fumes.

RESPIRATORY PROTECTION: Use NIOSH approved or equivalent fume respirator or air supplied respirator when welding in confined space or where local exhaust or ventilation does not keep exposure below PEL/TLVs.

EYE PROTECTION: Wear helmet or use face shield with filter lens. As a rule of thumb begin with Shade Number 14. Adjust if needed by selecting the next lighter and/or darker shade number. Provide protective screens and flash goggles, if necessary, to shield others.

PROTECTIVE CLOTHING: Wear hand, head and body protection which help to prevent injury from radiation, sparks and electrical shock. See ANSI Z49.1. At a minimum this includes welder's gloves and a protective face shield, and may include arm protectors, aprons, hats, shoulder protection as well as dark nonsynthetic clothing. Train the welder not to touch live electrical parts and to insulate himself from work and ground.

PROCEDURE FOR CLEANUP OF SPILLS OR LEAKS: Not applicable

WASTE DISPOSAL: Prevent waste from contaminating surrounding environment. Discard any product, residue, disposable container or liner in an environmentally acceptable manner, in full compliance with Federal, State and Local regulations.

SPECIAL PRECAUTIONS (IMPORTANT): Maintain exposure below the PEL/TLVs. Use industrial hygiene monitoring to ensure that your use of this material does not create exposures which exceed PEL/TLVs. Always use exhaust ventilation. Refer to the following sources for important additional information: ANSI Z49.1 from the American Welding Society, P.O. Box 351040, Miami, FL 33135 and OSHA (29 CFR 1910) from the U.S. Department of Labor, Washington, DC 20210.
